

ASTRA: STRIDE WARS - EXECUTION ROADMAP

Order of Execution: Forgot Password, Change Password & Rate Limiting

PHASE 1: Database & Schema Updates

- Update User Model (User.js) with reset token fields:

PHASE 2: Email Service & HTML Template

- Create password reset email generator in emailService.js
 - Token single-use test (tokens must be cleared immediately upon use)

PHASE 3: Backend Endpoints & Rate Limiting

- Install & configure express-rate-limit middleware:

PHASE 4: Frontend Pages & UI Integration

- Create ForgotPassword.jsx (/forgot-password) with email input & state feedback

PHASE 5: Security & Edge Case Testing

- Token expiration test (tokens must reject after 1 hour)
